Education is not just a process of giving knowledge for a future job but a lifelong process which creates an understanding of moral and ethical values to guide one's life in a right path. As a parent, you want the best for your child and we are proud to be working with you to ensure that they are given the right knowledge to face the future challenges. Parents, students and the school authorities are a team and we have to complement each other efforts.

At sunrise vidyalaya, we focus on complete development of our students by involving them in both scholastic & co-scholastic activities. I am sure this will help our children to realize, understand & explore their talents, In order to do this, the parents and the school authorities must work together to inculcate certain value in the students. "Sound body has a sound Mind" Let us allow our children to develop physically & mentally children learn a lot of values when they are involved in sports and Games. Some of these life skills & values cannot be taught in the classroom or at home. Sunrise Vidyalaya provides enough opportunities for the children to participate in sport & games.

"If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits." Therefore, children must be given a good training from their earliest childhood. We are here for the same. I am sure that our students of today, tomorrow will carry forward the motto of love and unity entrusted in their hands at Sunrise Vidyalaya. "Do the work with intention not because of compulsion. "With all my love, best wishes and blessings.
